

# How many cases of popcorn will my car hold?

A mid-sized car will hold about 15 cases.

A sport utility vehicle will hold about 30 cases.

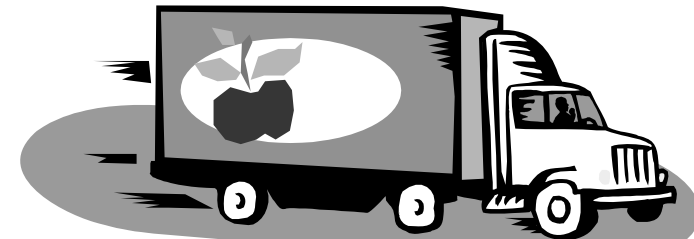

A mini-van with the seats removed will hold about 50 cases.

*Plan ahead to have enough room for all the popcorn you'll sell!*

Your best bet is to rent a trailer or moving van for a day. It will hold a lot of cases! It is a very inexpensive way to move a lot of popcorn!

Each product is packed in a box whose properties  
vary with the product:

3 Way Tin
